

ROGELIO JR IBACARRA

SDET / Test Automation Engineer (Java) | AI-Driven Quality Engineering

Cagayan de Oro City, Philippines | ibacarrajr.rogelio@gmail.com | 0975 468 0829 | linkedin.com/in/rogeliojr-ibacarra

PROFESSIONAL SUMMARY

Software Quality Assurance Engineer with 4 years in test automation and AI-driven quality engineering, plus 3+ years of prior remote and administrative work experience. Team point-of-contact for applying AI across the full testing lifecycle, consistently turning new tools into measurable results, including up to 68% faster development. Highly adaptable and quick to master new frameworks, platforms, and AI tools, with strong Java/Selenium automation, requirement analysis, defect management, and cross-team collaboration within Agile/SDLC environments.

TECHNICAL SKILLS

Test Automation & Frameworks: Java, Selenium WebDriver, Playwright, TestNG, JUnit, Infor TaaS Studio (Xtend), AWS Oxford Framework, Kubernetes

AI-Driven Testing & Tooling: AIDLC with Kiro (agentic AI), Amazon Q Pro, MCP servers, VS Code extensions, prompt design & AI code review, AWS, Azure

API & Testing Types: API validation, functional, regression, integration, end-to-end; Postman, RestAssured

Languages & Platforms: TypeScript/JavaScript, Node.js, Python, Bash/Shell scripting, Docker, SQL/database testing

QA Practices & Collaboration: Agile/Scrum, root-cause analysis (RCA), test planning & execution, mobile app testing, mentoring & knowledge transfer, internal tooling & process automation

Version Control & CI/CD: Git, GitHub, GitLab, Bitbucket, SourceTree, Jenkins, GitHub Actions

Project & Test Management: Jira, Zephyr, Asana, Trello

IDEs & Development Tools: IntelliJ IDEA, Eclipse, Visual Studio Code, TaaS Studio

Documentation & Productivity: Confluence, Microsoft Office, Power Automate, Adobe (Acrobat / Creative Cloud)

AIDLC PIPELINE (KIRO AGENTIC AI)

End-to-end AI-driven development lifecycle I built and own as POC, across nine stages: Onboarding → Test Design Creation → Test Design Review → Script Generation and Setup → Code Review → MR Creation → Stabilization → Merge and Cherry-Picking → Release.

PROFESSIONAL EXPERIENCE

Software Quality Assurance Analyst (SDET) — Infor

Nov 2022 – Present

Bonifacio Global City, Philippines (Hybrid)

- Point of Contact for the team's AI-Driven Development Lifecycle (AIDLC) using Kiro (agentic AI), built from zero setup across nine stages, reducing development time by up to 68%.
- Built AI-powered internal tools (PPV script generation & monitoring), an MCP server that triggers script stabilization across tenants and environments, and a VS Code extension for switching profiles across GitLab repositories and AWS configurations.
- Own and stabilize a regression suite of ~1,200 Java + Selenium scripts; perform root-cause analysis and API/end-to-end validation to improve reliability and execution quality.
- Led framework migration from Java Xtend to Selenium, and currently contribute to the Selenium-to-Playwright migration, improving maintainability, onboarding, and scalability.
- Pioneered the team's first AI-assisted automation with Amazon Q Pro (~40% faster delivery) and ran knowledge-transfer sessions to scale AI workflows across teams and stakeholders.
- Acted as PPV Point of Contact, coordinating intake, prioritization, and escalations for ~30 quarter-end orders; built internal productivity tools (auto sign-off, user management, auto-branching) to reduce manual toil.

Awards & Recognition:

- Sinagtala "Haribon" — Individual Contributor of the Year (Nominee, Dec 2025).
- AI Whisperer (Awardee, 2025) — expertise in AI-assisted automation and mentoring.
- Ace Innovator (Awardee, 2025) — innovative QA automation solutions.
- Ace Breakthrough (Awardee, 2025) — breakthrough contributions to delivery objectives.
- Traveling Trophy (2025) — rotating M3CSQA recognition; The Mighty Bond (2025); The Energizer (2025); Ace Motivator (2024).

Software Quality Assurance Analyst — Griffin Hill

Aug 2022 – Jan 2025

Pleasant Grove, UT, United States (Remote)

- Built a test automation framework from scratch and delivered 100+ scripts, improving regression coverage for company websites and products.
- Created and executed test plans for feature releases; maintained and upgraded test cases to prevent regressions.
- Managed and tracked defects and enhancements via ticket CRUD; validated fixes for web and mobile apps in a fully remote, international team.

Software Quality Assurance Analyst (Intern) — Wela School Systems

Aug 2021 – Oct 2021

Cagayan de Oro, Philippines (Remote)

- Performed functional testing and supported maintenance of a Learning Management System (LMS) used by multiple client schools.
- Executed test cases, logged detailed bug reports with clear reproduction steps, and collaborated with developers to verify fixes.

ADDITIONAL EXPERIENCE

3+ years of remote and administrative work experience, including 2.5 years full-time remote at Griffin Hill (above).

Appointment Setter (Freelance) — Master Service USA

Dec 2021 – Mar 2022

Guttenberg, New Jersey, United States (Remote)

- Scheduled and coordinated chimney cleaning and repair appointments; managed inbound and outbound calls and improved customer satisfaction through clear coordination.

Data Entry Clerk — Xavier Ateneo, Kinaadman Research Office

Aug 2018 – May 2020

Cagayan de Oro, Philippines (On-site)

- Maintained accurate student and research records for the university's research office.

CERTIFICATIONS

- Quality Assurance (QA) — Techniques and Methodologies, Alison (CPD Certified), Sep 2026. Credential 5801-60896547 (verify: alison.com/verify/453e8c4eb4).

EDUCATION

Bachelor of Science in Computer Science — Xavier University – Ateneo de Cagayan

2018 – 2022

- Consistent Dean's Lister (3.2 GPA); Xavier University Band Full Scholar.
